

Direct Debit from PayPoint is different

Why are we different?

Our flexible Direct Debit solution is part of our market-leading omnichannel platform, MultiPay, the one stop shop for all digital payments.

- Get real-time visibility of your customers' payments
- Use our intuitive portal to setup and manage Direct Debits in house
- Have a bespoke branded web page to easily set up Direct Debit
- Access a full reporting data suite for a single point of truth
- Have a branded web page to easily set up Direct Debit mandates

Plus, all the features you would expect as standard from your Direct Debit provider:

- Reduces your payment collection costs
- Any day collection and multiple frequencies
- Full API catalogue to integrate into your existing systems
- Letter printing and email services

Direct Debit complements our traditional over the counter cash channels

- Large and sophisticated organisations can use the extensive APIs to integrate to their existing customer processes and back office systems
- Smaller organisations can use the highly flexible portal to automate and grow customer Direct Debit payments

Why is MultiPay different?

- One stop shop for all digital payments
- Benefit from our extensive experience in payments
- Payment channels are quick to set up
- Data portal provides a single point of truth
- Easy to integrate
- Vibrant roadmap with new features being added regularly
